TRULLEVI HIKING TRAIL AND COBBLE FIELD (PIRUNPELTO) (12.9 KM/DIRECTION)

Difficult accessible trail – The sections between Punakallio and Rastimaja and from Valkohieta to Itähieta rest stop are accessible but challenging. When crossing Mastometsäntie road, you should watch out for a steep downhill section on the accessible trail which, when travelling from Trullevintie direction leads to a road used by cars. The trail has a long climb when travelling from Mastometsäntie towards Sienestäjantie road.

Medium difficulty trail - The section between Itähieta rest stop and Punakalliot is of medium difficulty. On this section, the trail is rocky and has tree roots. There are seats and picnic tables along the trail. On this trail you can familiarise yourself with signs of land uplift after the last Ice Age in nature. Cobble field (Pirunpelto) shaped during the last Ice Age is located on Trullevi hiking trail. There is an accessible picnic table at this point. You will also find glaciated rocks and land uplift forests on the trail. The city provides firewood for the campfire sites of Punakallio and Valkohieta. There are virtual information points on this trail, which is used as a ski track in winter.

SÖDRA TRUTKLIPPAN

The wooden leading beacon of Trutklippan built in 1890 is located on this island. The reservable hut on the island is suitable for overnight stays for small groups. For reservations and the key, contact Villa Elba. The whole island belongs to a shore conservation and Natura 2000 site. Landing can be difficult with northerly and north-westerly winds.

RUMMELÖ- HARRBÅDAN NATURE TRAIL (4 KM)

Difficult trail – the duckboards after Villa Elba's accessible trail are in a poor condition. This is a circle trail.

The sheep grazing in the area manage the landscape and delight hikers in summer. On Harrinniemi headland, there is an old leading light beacon made of concrete which is said to be haunted. There are several birdwatching towers along the trail. While there is no winter maintenance, hikers are free to use the trail in winter.

VILLA ELBA NATURE TRAIL (0.7 KM)

Accessible trail – Villa Elba nature trail is an accessible trail with duckboards. This is a circle trail.

Information is provided about the nature of the area along the trail, and activities organised by Villa Elba for children are available. Please note that the edges of the trail are intended for playing. Hikers must pick up after their dogs and other pets to prevent children's clothes from getting soiled.

VANHAN KALLEN KINTTUPOLKU TRAIL (4.6 KM/DIRECTION)

Easy trail - The trail is wide, fairly even and sandy. In the wet season, the trail may be waterlogged and challenging in places. Hikers return along the same trail.

The trail leads along old pine heaths, lush spruce forests and, once in Harrinniemi, to open sandy areas and dunes as well as a birdwatching tower. The trail ends at Harrinniemi lighthouse. A ski track follows sections of the trail in winter. A separate Winter trail is maintained for hikers in this area in winter.

HÄLLSKÄR LEAN-TO SHELTER

Easy trail - An easily accessible lean-to shelter in a pine forest near the seashore cliffs. The lean-to shelter is accessed from the road along a short sandy trail. The city provides firewood for the campfire site. Weather permitting, the lean-to shelter can be reached by skiing across the sea ice in winter.

CROSS-COUNTRY SKI TRACKS

In a snowy winter, there are several maintained ski tracks in the area. The ski tracks partly follow the same routes as hiking trails, which you should note when hiking. For the full ski tracks in Santahaka, see map sheet 6.

- When hiking, take note of the bird nesting season (from 15 April to 31 July).
- Please follow marked trails to avoid damaging the sensitive nature of this area.
- We follow the principles of litter-free hiking.
